- (j) To strive towards excellence in all sphere of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement.

## ABOUT THE ALMANAC

The Almanac is a two-way communication tool between home and school.

It:

- Acts as a prompt to plan resources to be taken home each day.
- Assists students to plan their time to meet due dates for assessment tasks.
- Provides the means to convey student's achievements and assessment results to parents.
- The avenue to inform the school of a student's absenteeism, late arrival, early departures and appointments outside the school structure.
- Assists communication to parents and teachers when interviews are required.
- Contains information regarding school rules and expectations, uniform requirements and policies of which both students and parents should be aware.
- Students are to take their diaries to all classes to record homework, assessment dates, reminders and achievement results.

Parents/Caregivers are asked to check their child's diary regularly, preferably daily, to monitor their child's progress and to sign in it.

Spoon feeding should be avoided for real learning to take place.

### SCHOOL ANTHEM

One step the first step, To scale the mountain,  
One note is all it takes for a master piece,  
One word begins the book that you have to write,  
You just believe in you, You've got what it takes,  
Let's share our dreams together, We'll share our dreams together.  
Chorus ;  
And take our step at a time',  
We can touch the stars forever,  
So let's reach towards the highest

## **MESSAGES AND ACTIONS TO BE TAKEN BY PARENTS & STUDENTS**

COVID-19 is a new virus and we are still learning about how it affects children. We know it is possible for people of any age to be infected with the virus, but so far there have been relatively few cases of COVID-19 reported among children. The virus can be fatal in cases, so far mainly among older people with pre-existing medical conditions.

Know the latest facts Understand basic information about coronavirus disease (COVID-19), including its symptoms, complications, how it is transmitted and how to prevent transmission. Stay informed about COVID-19 through reputable sources such as UNICEF and WHO and national health ministry advisories. Be aware of fake information/myths that may circulate by word-of-mouth or online.

Recognize the symptoms of COVID-19 (coughing, fever, shortness of breath) in your child Seek medical advice by first calling your health facility/provider and then take your child in, if advised. Remember that symptoms of COVID-19 such as cough or fever can be similar to those of the flu, or the common cold, which are a lot more common. If your child is sick, keep them home from school and notify the school of your child's absence and symptoms. Request reading and assignments so that students can continue learning while at home. Explain to your child what is happening in simple words and reassure them that they are safe.

Keep children in school when healthy If your child isn't displaying any symptoms such as a fever or cough it's best to keep them in school – unless a public health advisory or other relevant warning or official advice has been issued affecting your child's school.

Instead of keeping children out of school, teach them good hand and respiratory hygiene practices for school and elsewhere, like frequent handwashing (see below), covering a cough or sneeze with a flexed elbow or tissue, then throwing away the tissue into a closed bin, and not touching their eyes, mouths or noses if they haven't properly washed their hands. Washing hands properly Step 1: Wet hands with safe running water Step 2: Apply enough soap to cover wet hands Step 3: Scrub all surfaces of the hands – including backs of hands, between fingers and under nails – for at least 20 seconds Step 4: Rinse thoroughly with running water Step 5: Dry hands with a clean, dry cloth, single-use towel or hand drier as available

Wash your hands often, especially before and after eating; after blowing your nose, coughing, or sneezing; going to the bathroom/ toilets/latrines and whenever your hands are visibly dirty.

If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water, if hands are visibly dirty.

Help children cope with the stress Children may respond to stress in different ways. Common responses include having difficulties sleeping, bedwetting, having pain in the stomach or head, and being anxious, withdrawn, angry, clingy or afraid to be left alone. Respond to children's reactions in a supportive way and explain to them that they are normal reactions to an abnormal situation. Listen to their concerns and take time to comfort them and give them affection, reassure them they're safe and praise them frequently.

If possible, create opportunities for children to play and relax. Keep regular routines and schedules as much as possible, especially before they go to sleep, or help create new ones in a new environment. Provide age-appropriate facts about what has happened, explain what is going on and give them clear examples on what they can do to help protect themselves and others from infection. Share information about what could happen in a reassuring way.

For example, if your child is feeling sick and staying at home or the hospital, you could say, "You have to stay at home/at the hospital because it is safer for you and your friends. I know it is hard (maybe scary or even boring) at times, but we need to follow the rules to keep ourselves and others safe. Things will go back to normal soon."

#### **CHECKLIST FOR PARENTS/CAREGIVERS & COMMUNITY MEMBERS:**

- ☐ 1. Monitor your child's health and keep them home from school if they are ill
- ☐ 2. Teach and model good hygiene practices for your children
  - o Wash your hands with soap and safe water frequently. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water, if hands are visibly dirty
  - o Ensure that safe drinking water is available and toilets or latrines are clean and available at home
  - o Ensure waste is safely collected, stored and disposed of
  - o Cough and sneeze into a tissue or your elbow and avoid touching your face, eyes, mouth, nose
- ☐ 3. Encourage your children to ask questions and express their feelings with you and their teachers. Remember that your child may have different reactions to stress; be patient and understanding.
- ☐ 4. Prevent stigma by using facts and reminding students to be considerate of one another
- ☐ 5. Coordinate with the school to receive information and ask how you can support school safety efforts (though parent-teacher committees, etc.)

Education is not preparation for life, education is life itself.

[illegible]

[illegible]

The roots of education are bitter but the fruit is sweet.

[illegible]

Edward Everett: Education is a better safeguard of liberty than a standing army.

[illegible]

B. F. Skinner Education is what survives when what has been learned has been forgotten.

[illegible]

Aristotle: Education is the best provision for old age.

[illegible]

If you want to be more powerful in life, educate yourself. It's that simple.

[illegible]

[Robert M. Hutchins](#) The object of education is to prepare the young to educate themselves throughout their lives.

"The more that you read, the more things you will know. The more you learn, the more places you'll go!" - Dr Seuss

William Butler Yeats Education is not the filling of a pail, but the lighting of a fire.

Will Durant: Education is a progressive discovery of our own ignorance.

Robert Frost: Education is the ability to listen to almost anything without losing your temper or your self-confidence.

George Washington Carver: Education is the key to unlock the golden door of freedom.

Aristotle: The roots of education are bitter, but the fruit is sweet.

Sydney J. Harris: The whole purpose of education is to turn mirrors into windows.

[illegible]

“You’re braver than you believe and stronger than you seem, and smarter than you think.” –

Christopher Robin.

[illegible]

G.K. Chesterton: Education is simply the soul of a society as it passes from one generation to another.

[illegible]

Ernest Dimnet: Children have to be educated, but they have also to be left to educate themselves.

[illegible]

Martin H. Fischer: The entire world is a laboratory to the inquiring mind.

[illegible]

[illegible]

If you fail, never give up because F.A.I.L. means "First Attempt In Learning". End is not the end, if fact E.N.D. means "Effort Never Dies."

[illegible]

If you get No as an answer, remember N.O. means "Next Opportunity". So let's be positive.

[illegible]

[illegible]

To succeed in your mission, you must have single-minded devotion to your goal.

[illegible]

[illegible]

We should not give up and we should not allow the problem to defeat us.

[illegible]

[illegible]

[illegible]

Life is a difficult game. You can win it only by retaining your birthright to be a person.
